SOUTH CAROLINA
OFFICE OF THE
COMPTROLLER GENERAL

ANNUAL REPORT
1988-1989

Printed Under The Direction Of The
State Budget And Control Board

State of South Carolina

Office of Comptroller General

Wade Hampton Office Building
Post Office Box 11228
Columbia, South Carolina 29211

EARLE E. MORRIS, JR.
COMPTROLLER GENERAL

GERALD W. BURNETT
DEPUTY COMPTROLLER GENERAL

TO: The Governor
Members of the General Assembly

I am pleased to submit the 1989 Annual Report of the Comptroller General's Office. This report contains a synopsis of the programs, accomplishments and initiatives of the Comptroller General's Office during the 1988-89 fiscal year.

We have also included in this report a full account of the local government finances. This information includes the annual county settlements, a schedule on taxable property values, and homestead tax exemption reimbursements.

Any additional information desired will be made available upon request to this office.

Sincerely

Earle Morris, Jr.

EARLE E. MORRIS, JR.

Comptroller General's Office - Staff..... 2

The Comptroller's Office Role Within the State of South Carolina..... 3-9

Comptroller General's Office Expenditures..... 11

Statement Showing Receipts and Disbursements..... 12-57

Statement showing Receipts and Disbursements data submitted to the Comptroller General's Office by the various counties. Each report is divided into two major sections:

TAX ASSESSMENTS - Reports the assessments charged for collection and the disposition of those assessments as of the end of the fiscal year.

DELINQUENT TAX ACCOUNT - A report of the activity for all delinquent tax assessments and collections.

Taxable Property Values - Real Property and Personal Property..... 58

Due to the nature of the Motor Vehicle Law, Act 405, the tax year of a motor vehicle is concurrent with the licensing period, therefore, the assessed values have been based on what was collected in fiscal year 1988-89.

SOUTH CAROLINA COMPTROLLER GENERAL'S OFFICE

DUTIES AND RESPONSIBILITIES

The Comptroller General's Office was established by South Carolina's Constitution in 1801 for the purpose of supervising and accounting for the expenditure of all State funds.

The role of the Comptroller General's Office is set by the State's Constitution (Article VI, Section 7) and cannot be changed without revisions to that document. The State Constitution is interpreted to require a modern, responsive, efficient and cost effective accounting system in all aspects of the State's financial activity.

The Comptroller General is one of five Budget and Control Board members who collectively handle executive and administrative management of state government.

The Comptroller General's Office creates an account master from the annual State Appropriations Act and pre-audits all payments to ensure compliance with the Appropriation Act. This office also processes the payrolls for all state agencies, boards and commissions with the exception of state colleges, universities, Technical Education Centers and the South Carolina Department of Highways and Public Transportation, who are authorized to withdraw funds in favor of their own bank account in order to pay expenditures when owing and due.

Other responsibilities assigned to the Comptroller General's Office include statewide supervision of the collection of property taxes, administration of the Homestead Exemption Program, public service assessments and the Confederate Pension Program as well as the phase-out of the Merchants' Inventory Tax Program.

The Statewide Accounting and Reporting System (STARS) was implemented in 1981 to modernize the state accounting system. This Office has also taken the lead in bringing the State of South Carolina's finances into conformance with GAAP (Generally Accepted Accounting Principles). This goal was achieved for the fiscal year ended June 30, 1989.

The Comptroller General's Office is unique to South Carolina and no other state has an office like it. Some states have organizations which encompass some of the functions exercised by the Comptroller General's Office but no state has a comparable chief financial officer. The Comptroller General's Office is comprised of the following divisions: Administration, Local Government, Central State Audit, Central State Finance and Data Processing.

A brief description of each division's responsibilities:

ADMINISTRATION

The Administrative Division provides executive management, coordination and support for the Comptroller General's Office. It renders services in the areas of personnel, employee benefits administration, savings bonds adminis-

tration, budgeting, procurement and public relations to assure smooth and efficient functioning of all divisions and compliance with state and federal requirements.

The Administrative Division serves as the primary link between the Comptroller General and the Budget and Control Board's 13 divisions. This division also serves as a liaison to members of the General Assembly, other state and federal governmental entities, news media and the general public in responding to requests for information, reports and assistance.

Personnel services include screening and referring job applicants, preparing the payroll and maintaining personnel files for 95 employees, and providing assistance to employees and supervisors in matters such as conditions of employment, workers' compensation, leave, service awards, training, retirement, employment eligibility verification, parking and other human resource management areas. Numerous internal and external reports and plans are produced by this area including goals and procedures for affirmative action, workers' compensation reports, performance appraisals and success criteria, disciplinary action, and grievance procedures, as well as the employee handbook. This area is also responsible for assuring that the agency is in compliance with all state and federal personnel rules and regulations.

Employee benefits administration includes maintaining files for 95 employees, ensuring that the proper payroll deductions are made on a timely basis, reconciling monthly reports for the Insurance Benefits Unit for health, dental, optional life, and dependent life insurance, as well as monthly reconciliation reports for Hunt, DuPree and Rhine for the MoneyPlus flexible benefits plan and long-term care insurance program. This area is responsible for ensuring that the state's benefits programs are effectively communicated to employees and assistance is rendered to employees with claim and enrollment problems.

In addition to the 95 office employees, the state's appropriated salary for the 92 County Auditors and Treasurers is administered by this division. This includes maintaining personnel files for each auditor and treasurer and preparing the bi-monthly payroll as well as administering the state benefits programs for each of these officials. Assistance is provided to this group in the areas of insurance claim and enrollment problems and retirement as well.

The administration of the state's U. S. Savings Bonds program is also the responsibility of this division. The automated purchase of U. S. Savings Bonds program was implemented by the Comptroller General's Office in June, 1988. The new program eliminated a great deal of work which was formerly imposed on other state agencies' finance operations. Administration is responsible for maintaining a trust account, issuing the vouchers for the purchase of the savings bonds, and maintaining individual computer files on each bond owner participating in the payroll deduction program. The division works closely with the Federal Reserve Bank to ensure that the program operates smoothly and efficiently.

The agency's budget and accounting functions are another responsibility of this division. Administration is responsible for monitoring the current year's budget as well as planning and projecting the agency's budget for the next fiscal year. It maintains accounting controls over all financial trans-

ADMINISTRATION (Continued)

actions for the agency and ensures that the agency is in compliance with all rules and regulations and with Generally Accepted Accounting Principles.

The Administrative Division oversees the procurement functions for the agency. The procurement section is responsible for coordinating the acquisition of all goods and services relating to the agency. This includes the solicitation of bids, the procurement of all office supplies, equipment and printing services, and the handling of contracts for leased equipment and maintenance contracts on existing equipment. This area assures quality control on purchases, and manages and controls the disposal of all office supplies which support the daily needs of the agency. Numerous internal and external reports are created by this section including reports to the Materials Management Office assuring compliance with the State Procurement Code, Information Technology Management, and reports concerning Minority Business Administration.

Administration also performs public relations functions for the agency. Requests for information or assistance are received on a daily basis from a wide spectrum of individuals. One of the goals of the Administrative Division is to provide assistance to these individuals in an efficient and timely manner.

Administration includes a variety of office management and administrative support services for the Comptroller General's Office. This division carries out routine programs and special assignments to improve morale and achieve optimum efficiency throughout all divisions of the office and to assist the Comptroller General in his statutory duties and leadership role.

LOCAL GOVERNMENT

The Local Government Division relates directly with the counties and municipalities in South Carolina. It is responsible for the supervision and collection of property taxes. This division provides assistance to all county auditors, treasurers and tax collectors. Monthly and annual county reports required by law are audited and maintained by Local Government.

The Homestead Exemption Program, which offers tax relief for senior and disabled citizens, and the Merchants' Inventory Tax Program, which provides tax relief to the state's retail businesses, are administered by the division.

Various workshops and conferences are organized and conducted by the division to keep local government officials informed of new laws and procedures required to carry out their duties.

CENTRAL STATE AUDIT

Every dollar appropriated by the General Assembly and spent by South Carolina State Government must be approved by the Comptroller General's Office. The Central State Audit Division is responsible for auditing and certifying the validity, authenticity, and legality of each disbursement.

CENTRAL STATE AUDIT (Continued)

Higher education institutions, Technical Education Centers, and the Department of Highways and Public Transportation are permitted by law to process individual payments, but their request for funds to cover these payments must be approved by this office. All other agencies, boards, committees, and commissions must submit a detailed request for each payment or obligation incurred.

The salaries for the employees of approximately 145 agencies are paid through the Comptroller General's Office. This represents an annual payroll of approximately $835,000,000 for an average of 42,000 employees. During Fiscal Year 1988-89, approximately 580,000 changes were made to the payroll master file to process 1,008,000 personal service payments to employees. This is one of the largest payroll centers in the State of South Carolina.

In addition to approving payments for salaries, the Central State Audit Division must control and remit all deductions from the employee's checks which are either mandated by law or authorized by employees. Reports to the Internal Revenue Service, the State Tax Commission, the Social Security Administration and the South Carolina Retirement System are required on a schedule established by law. Reports for deductions of insurance, credit unions, public charities and others are also prepared and sent to various entities each pay day.

In addition, approximately 75,000 W-2 Forms and supplemental W-2's were issued to employees in 1989.

All obligations incurred in the operation of an agency such as rent, travel expenses, utility bills, and contractual items must be submitted to the Central State Audit Division for payment approval. Complete documentation and justification is required for every voucher processed. During fiscal year 1988-89, approximately 1,085,000 vouchers were approved for payment for approximately 200 state agencies, boards, commissions and committees.

The statutes, regulations and rules which govern all of these payments require constant research by the staff of this division. An extensive knowledge of tax law is necessary in order to determine those payments which must be reported on 1099 Forms or W-2 Forms, depending on the nature of the payment.

The staff has a very close working relationship with the General Assembly providing consultation on all legislation regarding the payment of funds and advising on the financial impact of proposed legislation.

Another responsibility of this division is to publish rules governing disbursements based on current statutes to all State agencies. Although some agencies, as previously mentioned, are allowed to process individual payments themselves, the rules issued by this office govern their payments and the advice of this office is sought on a continuing basis.

CENTRAL STATE FINANCE

The Central State Finance Division provides for centralized accounting and reporting of financial data in accordance with the statewide budget structure mandated by the General Assembly. The Division also provides for statewide financial reporting in accordance with Generally Accepted Accounting Principles (GAAP).

In 1981, the Statewide Accounting and Reporting System (STARS) was implemented as the official state accounting system.

STARS is used to satisfy statutory reporting requirements and serves as a starting point for generating financial statements prepared in accordance with Generally Accepted Accounting Principles (GAAP). STARS generates statutory-basis reports for approximately 200 operating state agencies, boards, commissions and committees. These reports are used by the agencies, etc. in performing their accounting and budgeting functions.

The Statewide Accounting and Reporting System (STARS) is a table-driven system made up of thirty-three separate tables. The Central State Finance Division is responsible for all additions, deletions, and/or changes to the table maintenance subsystem of STARS.

Prior to the start of each new fiscal year, this division sets up a Chart of Accounts for all state agencies. The accounts are created based on the new fiscal year Appropriation Act which is approved by the General Assembly and signed by the Governor. Included in this process is the establishment of all appropriated accounts, supplemental and deficiency appropriation accounts, and estimated sources of revenue for general, earmarked, restricted, and federal funds. Accounts are also established for agencies implementing a Capital Improvement Bond Program. During the fiscal year, adjustments are made to these accounts based on revenue fluctuations (occurring within the current fiscal year) above or below the level allocated in the Appropriation Act. This division works closely with the Board of Economic Advisors throughout the year in regard to revenue projections and revised estimates that may impact fiscal operations due to changing economic conditions of the State.

The division receives and pre-audits all appropriation transfers, revenue transfers, and journal vouchers from state agencies, prior to being input to the Statewide Accounting and Reporting System (STARS). The Error File is reviewed daily for any transactions unable to post to STARS due to "appropriation" or "cash" problems. Daily/monthly reports are continuously reviewed to identify any accounting events that posted in error. Corrective action is immediately taken to reverse an entry which posted incorrectly. All input documents are balanced to daily computer reports for increased quality assurance of the Statewide Accounting and Reporting System (STARS).

Report analyses are provided to state agencies on a daily, weekly, monthly, quarterly, and annual basis. Examples of uses of these reports include account reconciliation, account analyses, and control of expenditures.

State law expresses the intent of the General Assembly that financial statements issued for the State of South Carolina shall be in conformance with Generally Accepted Accounting Principles (GAAP). The Central State Finance Division made GAAP conversion a primary objective in 1983 at the direction of

Comptroller General, Earle E. Morris, Jr. Assistance was provided on GAAP conversion by the accounting firm of Arthur Andersen & Company.

The division prepares the State's Comprehensive Annual Financial Report (CAFR) in accordance with GAAP. For the fiscal year ended June 30, 1989, an audit of the State's general purpose financial statements, included within the CAFR, was performed jointly by the State Auditor's Office and Peat Marwick Main & Co. For the second consecutive year, the State's CAFR includes an unqualified report of the independent certified public accountants, the best possible result of the audit process. In August 1989, the Government Finance Officers' Association awarded its prestigious Certificate of Achievement for Excellence in Financial Reporting to the State of South Carolina. South Carolina became the thirteenth state to be so recognized. The award relates to the State's CAFR for the fiscal year ended June 30, 1988. The Certificate of Achievement is the highest form of recognition awarded in the field of governmental financial reporting. The award recognizes the fact that our State's CAFR meets a standard of excellence even higher than that required by Generally Accepted Accounting Principles. The award is the result of several years of effort by the Comptroller General's Office, with the support of the General Assembly, toward improving South Carolina's financial reporting practices.

The Comptroller General's Office has again submitted the CAFR for the fiscal year ended June 30, 1989, to the Certificate of Achievement for Excellence in Financial Reporting program of the Government Finance Officers' Association of the United States and Canada. The Comptroller General's Office believes that the report again will meet the requirements of the certificate program.

The implementation of GAAP has been a major undertaking and requires participation of all state agencies. Agencies have been required to change some of their daily procedures as well as submit additional information at the end of each fiscal year in order to convert STARS data to GAAP. Generally Accepted Accounting Principles (GAAP) have provided improved management of the State's resources, have provided a more accurate financial picture of the State's financial condition and operations, and have helped to maintain the State's Aaa bond credit rating.

Central State Finance is also responsible for preparing a number of other financial reports on a regular basis. These include:

- Annual and interim statewide financial statements appearing in the published prospectus (material provided to bond purchasers) whenever the State issues general obligation bonds
- Financial data included in the State Budget
- Annual statewide financial information as requested by the U.S. Census Bureau, bond rating organizations (e.g., Moody's and Standard and Poor's) and by others
- Monthly statutory revenue reports for the Budgetary General Fund.

Other special reports are generated as requested by external parties such as the press, the General Assembly, state officials and agency accounting personnel.

Central State Finance is responsible for communicating changes in regulations and policies to agency accounting and finance personnel which affect their operations. Procedural bulletins, policies and procedures manuals, training sessions and instructional memoranda are the primary means used for this purpose.

In addition to the above functions, the Central State Finance Division is responsible for the development and maintenance of a centralized records management program for the Office of Comptroller General. Maintenance and management of the records entail the handling of accounting source documents for 200 active state agencies. The Records Management unit performs certain accounting control measures before source documents are filed. Once the accounting control measures are complete, the documents are filed in a manner consistent with the Public Records Act of 1973.

DATA PROCESSING

The Data Processing Division provides technological support to other divisions of the Comptroller General's Office using the Information Resource Management Concept. This support includes planning, development, implementation and operation of automated systems.

A major objective of the Division is coordination of technologies in the office environment to stabilize or reduce personnel costs. This objective touches all areas of the office and involves technologies related to communications, reprographics, office productivity and large scale information systems.

Major large scale information systems include the Statewide Accounting and Reporting System (STARS) and the Payroll System used for most state agencies. Both STARS and the Payroll System include interfaces to other computer systems in state government.
